

National Institute of Technology Delhi

Training and Placement Cell

NIT DELHI PLACEMENT POLICY 2014

We aim to place 100 percent students. In order to fulfill our aim we propose the following:

1. **One Person one job:** This will ensure that every student will get equal job opportunities and only few students do not consume up all the jobs.
2. If a person is placed in any of the **PSU** then, the placement is over for him/her.
3. If the recruited student does not join the company without intimating the details to the placement office, has to pay an amount of **20,000** to receive the passing certificate and security deposit from the institute.
4. Any student found involved in any sort of **unethical activities** or inappropriate behaviour in the college or during the conduction of placement procedure will be debarred from the further placement season.
