<p>Read the following Passage and answer the Q. 11 and 12.</p>		

	<p><i>English is generally acknowledged to be the world's most important language. It is perhaps worth trying to understand briefly the basis for that evaluation. There are after all thousands of languages in the world and each seems to be uniquely important to those who speak it as their native language, the language they acquired at their mother's knee. But there are some objective standards to judge their relative importance.</i></p> <p><i>One criterion is the number of speakers of the language. A second is the extent to which a language is geographically dispersed; in how many continents and countries it is used or its knowledge necessary? A third is its functional load : how extensive is the range of purposes for which it is used? In particular, to what extent is it the medium for highly valued cultural manifestations such as science or literature? A fourth is the economic and political influence of the native speakers of the language.</i></p>	
11.	<p>The author wants to evaluate the importance of the English language, because it is</p> <p>(A) the language of the Britishers (B) studied as second language in India (C) the most useful language of the world (D) used in many countries</p>	C
