---

### **1.1 Vision**

- To create educational environment to prepare the students to meet the challenges of infra structure development through state of art technical knowledge and innovative approaches up holding sound ethics.

### **1.2 Mission**

- To create learning, developments and testing environment meet ever challenging needs of the infrastructure development.
- To create entrepreneurial environment and industry interaction for the benefit of society.
- To be a global leader in training human resources in the various domain of the civil engineering.
- To collaborate with reputed institution national and international level for academic and research excellence.
